

2027 Shanghai International Metal Recycling Expo

7-9 July 2027

Hall E5, Shanghai New International Expo Center

Organizer:

rxg In the business of building businesses

Supporting Associations:

China Nonferrous Metals Industry Association
China Nonferrous Metals Industry Association Recycling Metal Branch

The 2027 Shanghai International Metal Recycling Expo will spotlight key development trends in the recycled metals industry—from industrial chain expansion and collaboration to technological innovation, recycled raw material supply, regeneration and applications. The tradeshow will showcase a wide range of advanced technologies and equipment, promoting in-depth exchanges and discussions among industry professionals, associations, research institutions, and technical experts on emerging opportunities and innovative models for the future growth of the sector, thereby fostering new prospects for commercial cooperation and sustainable development.

What you will gain

Connect with **36,000+** professionals from **100+** countries and **680 global exhibitors** to link high-potential buyers with key suppliers.

Discover advanced technologies, equipment, and solutions for recycled metals and the circular economy.

Gain insights from innovation forums on policies, trends, and applications.

Build connections with **4,000+** international professionals across Southeast Asia, the Middle East, Europe, and North America to boost procurement and expand business networks.

Reduce costs and emissions through green manufacturing and build sustainable supply chains.

Seize opportunities in recycled metals and green manufacturing for strategic growth.

Exhibitor Range

- Suppliers of dismantling, crushing, sorting, and briquetting equipment
- Solution providers of washing and drying systems
- Manufacturers of advanced sorting machinery
- Manufacturers in aluminium dross treatment equipment
- Manufacturers of smelting, casting, and industrial furnace solutions
- Licensed recyclers and trading companies for scrap aluminium and copper
- Primary processors of scrap aluminium and copper materials

Previous Exhibitors (Partial)

* In no particular order

Visitor Profile

- Recycled aluminium / magnesium / copper producers
- Distributors and traders in the aluminium / magnesium / copper industry
- Primary aluminium producers, aluminium fabricating manufactures, and scrap recycling manufactures
- Copper fabricating manufactures and recyclers
- Magnesium fabricating manufactures and recyclers
- Downstream application enterprises of aluminium / magnesium / copper

Targeted Visitors (Partial)

* In no particular order
